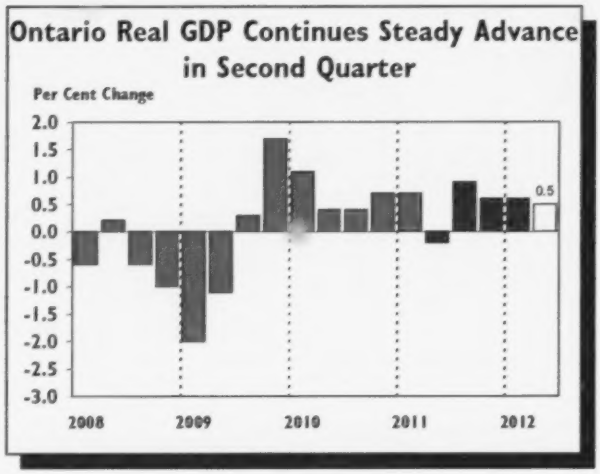
SECOND QUARTER (APRIL-JUNE) 2012 SUMMARY



- Ontario's real **Gross Domestic Product** (GDP) increased 0.5% in the second quarter of 2012, following a 0.6% increase in the first quarter. Canadian real GDP increased 0.5% while U.S. real GDP rose 0.3% in the quarter.

- **Real Consumer expenditures** edged up 0.1%, after increasing 0.6% in the first quarter.

- **Real Investment in residential construction** fell 2.7% in the quarter, the first decline since the fourth quarter of 2010. Spending on new housing construction increased 3.7%, while expenditures on renovation activities (-8.0%) and home ownership transfer costs (-4.7%) decreased.

- **Business investment on plant and machinery** edged up 0.2%, following a 1.0% advance in the first quarter. **Investment in non-residential structures** increased a solid 2.5%, rebounding from a 0.3% decline in the first quarter. **Investment in machinery and equipment** decreased 0.4% in the quarter after increasing 1.4% in the first quarter.

- Businesses increased **inventories** by $5.1 billion ($2002), after an accumulation of $2.1 billion in the first quarter.

- **Exports** continued their upward trend, advancing 1.1% in the second quarter while **imports** rose 0.4%.

- In **current dollars, GDP** increased by 0.5% in the second quarter, following a gain of 0.7% in the previous quarter. Economy-wide prices, as measured by the **GDP implicit price index**, were unchanged after edging up 0.1% in the first quarter.

- Economic production on an **industry basis** also advanced 0.5%. Production by goods-producing industries advanced 1.1% while service sector output edged up 0.2%.

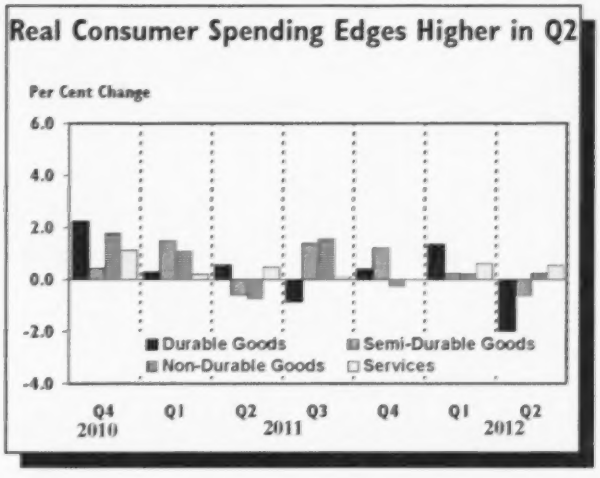
SECOND QUARTER EXPENDITURE AND INCOME DETAILS

CONSUMER SPENDING EDGES UP

Real consumer spending rose a modest 0.1% in the second quarter, the 13th consecutive quarterly gain.



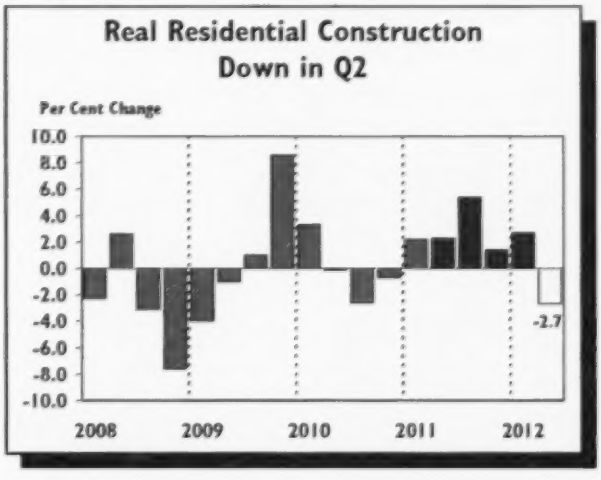
Spending on consumer **durables** declined 2.2% after rising 1.3% in the first quarter. Purchases of motor vehicle and furniture and appliances both decreased in the quarter.

Spending on **semi-durables** fell 0.6% after rising in the previous three quarters. Expenditures on clothing and footwear rose in the quarter, while spending on other semi-durables such as luggage and leather goods declined. Expenditures on **non-durable** goods edged up 0.2% as higher purchases of food and beverages, electricity, gasoline and pharmaceuticals were partially offset by lower spending on natural gas and other fuels, tobacco products and other non-durable goods.

Household spending on **services** increased 0.5% in the quarter, following a 0.6% advance in the previous quarter.

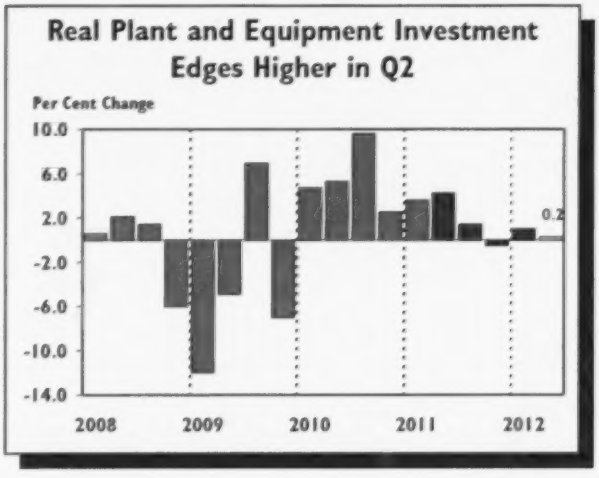
RESIDENTIAL CONSTRUCTION SPENDING DECLINES

Real residential construction investment spending decreased 2.7% in the second quarter, reversing a first quarter gain. This was the first decline in housing investment since the fourth quarter of 2010. Spending on new housing construction advanced 3.7%, following a 6.1% jump in the first quarter. This increase was more than offset by declines in renovation spending (-8.0%) and ownership transfer costs (-4.7%) as home resales declined.



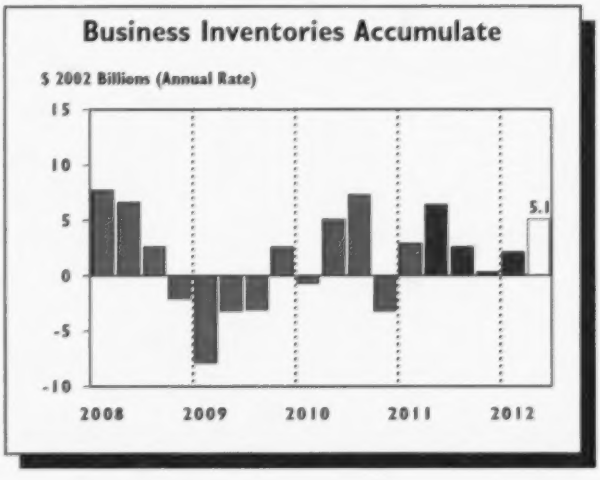
Business Investment Growth Moderates

Capital spending on plant and equipment by Ontario businesses edged up 0.2% in the second quarter following a 1.0% rise in the first quarter. A 2.5% gain in spending on **non-residential structures** was partially offset by a 0.4% decline in **real machinery and equipment**. With the second quarter gain, Ontario investment in plant and equipment is now 35.6% higher than the recessionary low recorded in the second quarter of 2009.



Inventory Levels Higher

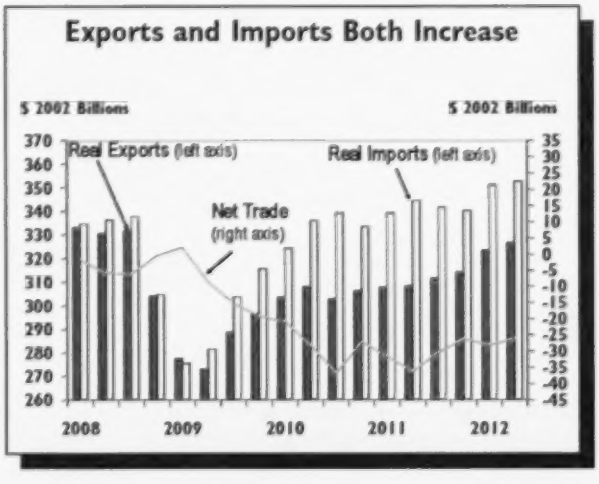
Ontario businesses increased inventory stocks by $5.1 billion ($2002) in the second quarter, after an accumulation of $2.1 billion in the first quarter. Wholesale inventories, particularly motor vehicle stocks, increased in the quarter. Manufacturers and retailers also increased their inventory levels in the second quarter.



Exports and Imports Both Strengthen

Real exports of goods and services increased 1.1%, after rising 2.9% in the first quarter. **Real imports** of goods and services advanced a modest 0.4%, following a strong 3.3% gain in the first quarter.

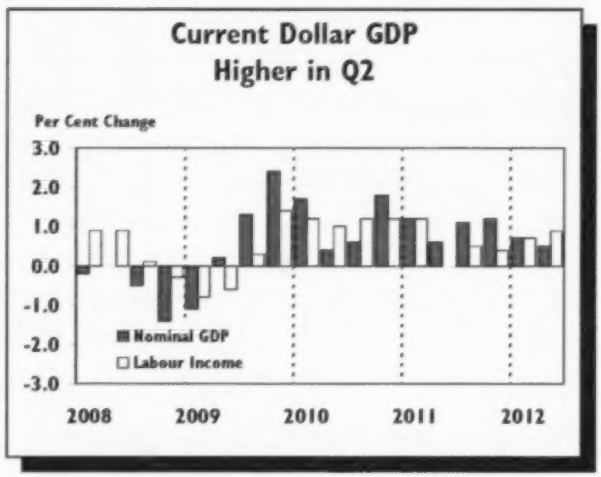
International merchandise exports continued their upward trend, rising 1.5%, the fourth consecutive quarterly gain. Exports of automotive products, machinery and equipment and agricultural products supported the overall gain.



International merchandise imports edged up 0.2% in the quarter as higher auto imports were partially offset by lower imports of machinery and equipment, industrial goods and materials and consumer goods.

CURRENT DOLLAR GDP HIGHER

Gross Domestic Product measured in current dollars grew 0.5% in the second quarter. Gains in labour income and net income of unincorporated businesses were the main contributors to the increase.



Labour income increased 0.9%, strengthening from a first quarter gain of 0.7%.

Personal disposable income increased 0.8%, while consumption expenditures (in current dollars) edged up 0.1%. As a result, the personal savings rate*, the ratio of savings to disposable income, increased to 1.9% in the second quarter from 1.2% in the first quarter.

Corporate profits, on a national accounts basis, declined 2.9% in the second quarter, following a 3.9% decrease in the first quarter. Profits were lower in both the financial and non-financial sectors.

***Note**: Personal savings is calculated in the System of National Accounts as the difference between the amount households receive as current income and their outlays for taxes and personal consumption.

Economy-wide Prices Unchanged

Economy-wide prices, as measured by the **GDP implicit price index**, were unchanged in the second quarter, after a small 0.1% increase in the first quarter.

Prices for **personal consumer expenditures** on goods and services were flat, following a 0.3% advance in the first quarter. Prices for motor vehicles and parts, food and beverages, pharmaceuticals, electricity and other fuels all increased in the quarter. These increases were offset by lower prices for furniture and appliances, clothing and footwear, natural gas and gasoline.

Machinery and equipment prices increased 1.2% in the second quarter while **non-residential construction prices** decreased 0.3%. **Residential construction prices** advanced 1.3%, reflecting higher costs for new housing, renovation and real estate transaction fees.

Export prices increased marginally by 0.2% while **import prices** advanced 0.6% in the quarter. A 0.9% depreciation in the Canadian dollar relative to the U.S. dollar contributed to the increase in the Canadian dollar price of both exports and imports.

ONTARIO PRODUCTION BY INDUSTRY

HIGHLIGHTS

Real output by industry advanced 0.5% in the second quarter, matching the first quarter gain. Both the goods-producing (+1.1%) and service-producing (+0.2%) sectors recorded gains in second quarter output.

The manufacturing (+1.5%), financial (+0.5%), information and cultural (+2.5%) and utilities (+3.6%) sectors all posted solid output increases in the quarter. Production was lower in the wholesale (-1.1%), retail (-0.7%), construction (-1.2%) and public administration (-0.7%) sectors.

Ontario Output at Basic Prices	**3.2**	**2.0**	**0.9**	**0.4**	**0.5**	**0.5**
(annualized rates)			3.6	1.6	2.1	1.8

Note: Output by industry is defined as real gross domestic product (GDP) at basic prices in chained 2002 dollars. GDP at basic prices includes taxes net of subsidies on labour and capital inputs, but not taxes on final products.

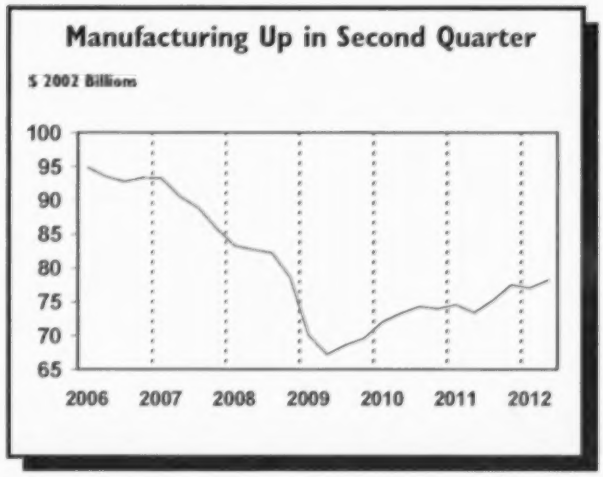
Manufacturing Output Up

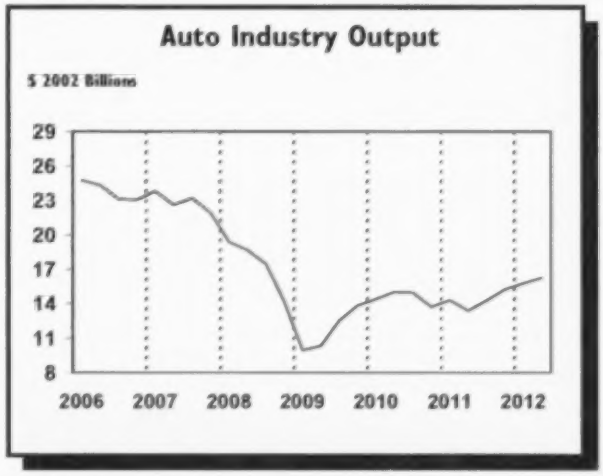
The manufacturing sector's output increased 1.5% in the second quarter, continuing the steady recovery from the 2008-2009 global recession.

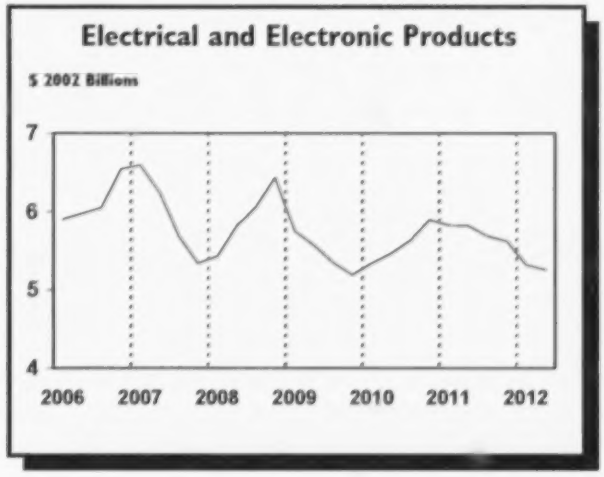
Five of eleven manufacturing industries expanded production in the second quarter, with the transportation equipment (+4.1%), machinery (+4.7%) and primary metal and fabricated metal products (+1.1%) industries driving overall growth for the sector.

Within the transportation equipment sector, production in both the auto (+3.2%) and *other transportation equipment** (+6.9%) industries advanced in the quarter.

Partially offsetting these gains were declines in the electrical and electronic products (-1.1%), other manufacturing (-1.1%) and food, beverage and tobacco products (-0.4%) industries.





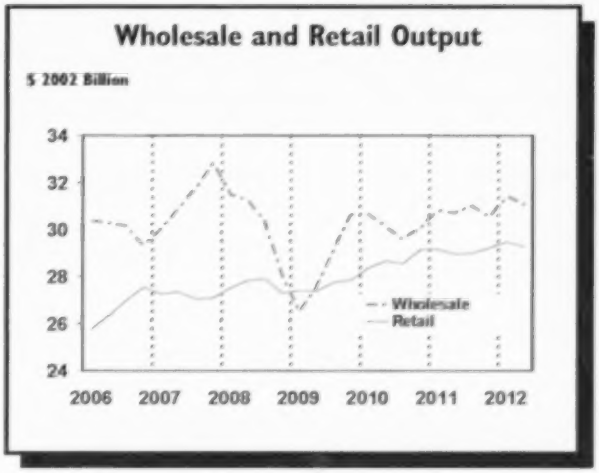


*The other transportation equipment category includes the aerospace, railroad rolling stock and ship and boat building industries.

Wholesale and Retail Trade Lower in Quarter

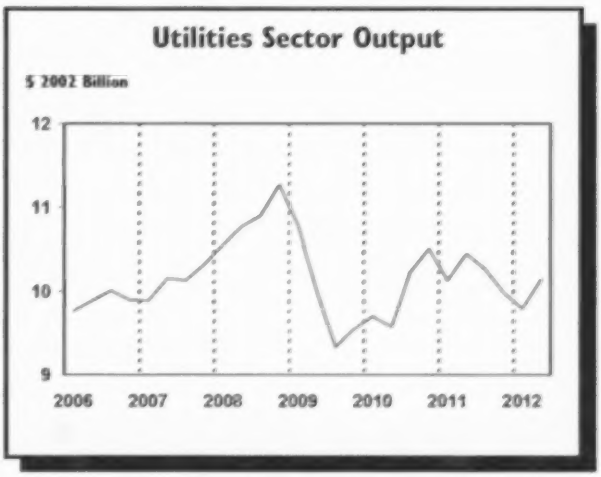
Wholesaling activity declined 1.1% in the second quarter, after rising 2.9% in the previous quarter. Lower activity was reported by food, beverage and tobacco, personal and household goods and miscellaneous products wholesalers.

Production in the retail trade sector (-0.7%) was also lower in the quarter, following three consecutive gains. Output of motor vehicle and parts dealers and gasoline stations declined but this was moderated by gains at food and beverage stores.



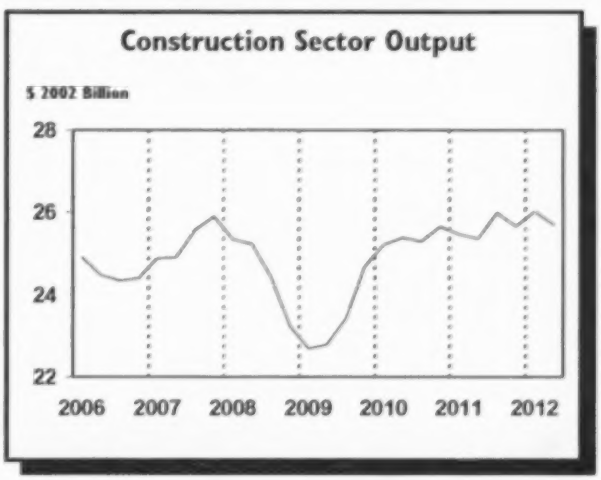
Utilities, Construction and Natural Resources

Utilities output advanced 3.6% in the second quarter, following three consecutive quarterly declines. Output of electric power rose 4.5%, as unseasonably warm weather increased demand. Production by natural gas and water distribution utilities rose 0.6%.



Construction sector output fell 1.2%, almost entirely offsetting a strong 1.4% gain in the first quarter. Both residential (-2.6%) and non-residential and engineering (-0.2%) construction decreased.

Mining output rose 0.9%, largely reversing a 1.0% decline the previous quarter. Higher output at copper, nickel, lead and zinc mines contributed to the second quarter gain.

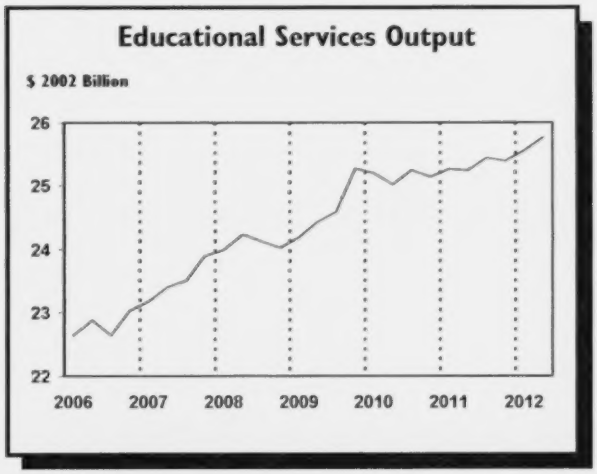


Note: Construction industry output is measured by the value added of the industry. Construction investment, as reported in the expenditure-based GDP accounts, measures the spending on new construction projects.

Education, Health Care and Public Administration

Education services increased 0.8% in the second quarter, following a 0.6% first quarter gain.

Production in the health care and social services sector increased 0.3%, while public administration output declined 0.7%.



Finance, Insurance, Real Estate and Leasing

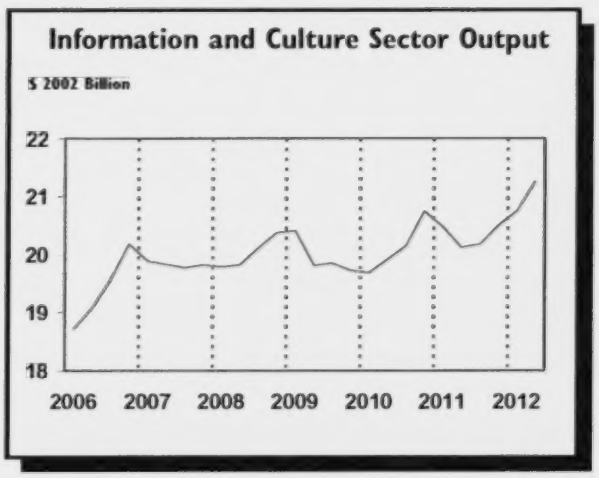
Output in the finance, insurance, real estate and leasing sector rose 0.5% in the second quarter, the fourth consecutive quarterly gain.

Gains in a number of industries – including lessors of real estate (+0.8%) and insurance carriers (+0.4%) – contributed to the second quarter increase. Output in the banking sector edged up 0.1%, following three quarters of strong gains.

Other Service Sector Industries

In the information and culture sector (which includes telecommunications), production advanced 2.5% to a record high level, reflecting employment gains in the motion picture and sound recording industries.

Output in the professional and administrative (+0.7%) and transportation and warehousing (+0.7%) sectors also increased in the quarter.



Structure of the Ontario Economy, 2011

Per Cent Share of Nominal GDP
